

KiVa intranet in a nutshell

No child
deserves to
be bullied.

KiVa is an antibullying program that has been developed at the University of Turku, Finland, with funding from the Ministry of Education and Culture.

User roles in the new KiVa intranet for a KiVa school

1. Coordinator
2. Teacher

Coordinator has access to:

- School profile (own school only) including also KiVa materials
- Announcements
- User database
- Games
- Instructions

Can add and remove colleagues' user IDs

Both **school principals** and **KiVa coordinators** have a coordinator level ID in the new intranet.

Coordinator can

- View and edit own school details (address, number of students etc.)
- View own school survey results
- Add and delete other own school coordinators
- View KiVa materials (for teaching)
- Read announcements
- Access games' user management

Teacher has access to:

- School profile
- Materials
- Announcements
- Games
- Instructions

Teacher can

- View own school details (but **not** edit)
- View KiVa materials (for teaching)
- Read announcements
- Access games' user management
